

TR-5 Tactical Rifle 5 Day

This course is designed for law enforcement, correctional, armed security, and military personnel. The course and its various courses of fire focus on techniques that have a broad array of applications for the rifle or carbine including, patrol operations, emergency response, close quarters deployment, and intermediate to long range applications. The course is designed to provide a high degree of operator development topics concentrating on those areas that will enable the professional to respond to acts of active aggression in a relevant, appropriate and legally defensible manner.
